Prescription Drug List

Effective July 1, 2015

Preferred Drug List Introduction

PREFERRED DRUG LIST

The Ambetter from Coordinated Care Preferred Drug List is a guide to available brand and generic drugs that are approved by the Food and Drug Administration (FDA) and covered through your prescription drug benefit. Generic drugs have the same active ingredients as their brand name counterparts and should be considered the first line of treatment. The FDA requires generics to be safe and work the same as brand name drugs. If there is no generic available, there may be more than one brand name drug to treat a condition. Preferred brand name drugs are listed on Tier 2 to help identify brand drugs that are clinically appropriate, safe, and cost-effective treatment options, if a generic medication on the Preferred Drug List is not suitable for your condition.

Please note, the Preferred Drug List is not meant to be a complete list of the drugs covered under your prescription benefit. Not all dosage forms or strengths of a drug may be covered. This list is periodically reviewed and updated and may be subject to change. Drugs may be added or removed, or additional requirements may be added in order to approve continued usage of a specific drug.

Specific prescription benefit plan designs may not cover certain products or categories, regardless of their appearance in this document. Please check your benefits for coverage limitations and your share of cost for your drugs.

Drug List Key:

Brand name drugs are listed in CAPS and generic drugs are lower case.

Drugs are covered under different copayment tiers depending on your benefit:

- Tier 0** - No copayment for those drugs that are used for prevention and are mandated by Affordable Care Act. Select oral contraceptives, vitamin D, folic acid for women of child bearing age, over-the-counter (OTC) aspirin, and smoking cessation products may be covered under this tier. Certain age or gender limits apply.
- Tier 1** - Lowest copayment for those drugs that offer the greatest value compared to other drugs used to treat similar conditions. Select over-the-counter (OTC), generic or brand name drugs may be covered under this tier.
- Tier 2** - Medium copayment covers brand name drugs that are generally more affordable, or may be preferred compared to other drugs to treat the same conditions.
- Tier 3** - Highest copayment covers higher cost brand name drugs. This tier may also cover non-specialty drugs that are not on the Preferred Drug List but approval has been granted for coverage.
- Tier 4** - Coverage for this tier is for “specialty” drugs used to treat complex, chronic conditions that may require special handling, storage or clinical management. For members who do not have a four-tier plan, these drugs may be covered under Tier 3.

0 Preventative

1 Generics

2 Preferred Brands

3 Non-Preferred Brands

4 Specialty

QL

Quantity Limit

There is a limit on the amount of drug covered per prescription, or within a specific time frame.

PA

Prior Authorization

Prior Authorization required before prescription can be filled.

ST

Step Therapy

Requires trial and failure of one or more preferred products prior to coverage.

GL

Gender Limit

Drug is limited to specific gender.

AL

Age Limit

Drug is limited to specific age.

MDD

Max Daily Dose

A limit on the number of times the drug can be taken per day.

MPL

Max Package Limit

A limit on the amount of drug covered per prescription.

MDS

Max Days Supply

There is a limit on the amount of this drug that is covered.

C

Custom

This drug has unique restrictions.

LIST OF COVERED OVER-THE-COUNTER MEDICATIONS

PRODUCT DESCRIPTION	BRAND/GEN	TIER	LIMITS & RESTRICTIONS
Analgesics			
Nonsteroidal Anti-inflammatory Drugs			
<i>aspirin tab delayed release 81 mg</i>	generic	0	C Covered for males 45-79 and females 55-79 years of age
